

Pravalika Nanna

Hyderabad, India | nannapravalika566@gmail.com | +919346299026

Professional Summary

Detail-oriented **Computer Science graduate** with strong foundations in **AI, Machine Learning, and Data Science**. Skilled in **Python, SQL, C, C#, and data engineering pipelines**, with experience handling structured/unstructured data, text, and documents. Adept at building maintainable, production-ready code and working in cross-functional teams. Passionate about fraud detection, automation, and business-focused AI solutions, with excellent communication skills for **client-facing roles**. Immediate joiner, open to remote work in Germany.

Core Skills

- Programming: Python, C, C++, C#, Shell Scripting, SQL, ElasticSearch
 - Data Science: Machine Learning, NLP, GenAI Concepts, Model Training/Tuning
 - Data Engineering: ETL Pipelines, Data Cleaning, Integration, Storage
 - Tools: Git, GitHub, Jupyter, Pandas, Scikit-learn, TensorFlow, Power BI
 - Concepts: SDLC, Debugging, Fraud Detection Principles, Automation Frameworks
 - Soft Skills: Client Communication, Presentation, Analytical Thinking, Business Understanding
-

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering

DRK College of Engineering, Hyderabad, India | 2025

Projects & Experience

Major Project – EmotiCare: Machine Learning Framework for Emotion Detection

- Designed an NLP-based ML system to detect emotions in mental health conversations.
- Worked on **data cleaning, preprocessing, and model training/tuning**.
- Implemented classification models using **Python, Scikit-learn, TensorFlow**.
- Built a user interface for demonstration and end-user testing.

- Applied full **model lifecycle** from concept to deployment.

Technical Trainer (Part-time) – Software Development & Data Science Concepts

- Delivered sessions on Python, Java, and data structures to B.Tech students.
- Guided students in debugging, code optimization, and understanding algorithms.
- Prepared technical documentation, presentations, and assignments.
- Developed strong client-facing and teaching skills.

Freelance Developer & Content Creator

- Built scripts and automation tools for small businesses.
 - Created technical presentations and reports for IT training.
 - Coordinated with clients to define requirements and deliver solutions.
-

Certifications

- Python for Everybody – University of Michigan (Coursera)
 - Applied Data Science with Python – University of Michigan (Coursera)
 - SQL for Data Analysis – Udemy
 - Git and GitHub Essentials – Udemy
-

Languages

- English – Fluent
 - Hindi – Fluent
 - German – Basic (A1, learning in progress)
-

Additional Information

- Availability: Immediate Joiner
- Open to Remote Work (Germany-based)
- Interest in AI/ML for fraud detection, AML, and claims automation
