

PRAVALIKA NANNA

Full Stack Developer | Python Django | React | Technical Trainer

Hyderabad, India | +91 9346299026 | nannapravalika566@gmail.com

GitHub: github.com/nannapravalika | LinkedIn: linkedin.com/in/pravalika-nanna | Portfolio: nannapravalika-portfolio.vercel.app

PROFESSIONAL SUMMARY

Results-oriented Full Stack Developer and Technical Trainer with proven expertise in Python, Django, React, and AWS. Skilled in designing and deploying scalable web applications, building RESTful APIs, and delivering hands-on coding training to engineering students.

Recognized for combining technical execution with strong mentoring skills — having trained 300+ students in coding, web development, and logical problem-solving. Currently engaged as a Visiting Lecturer at JNAFAU, guiding students in real-world full stack projects.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, PHP, C, C++, Node.js

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Django, Flask, Express.js

Databases: MySQL, PostgreSQL, MongoDB

Cloud & Tools: AWS (EC2, S3, RDS), Docker (basic), Git, GitHub, Postman, VS Code, PyCharm

Concepts: REST APIs, MVC Architecture, Responsive Design, Agile Workflows, CI/CD Basics

Additional: WordPress, Basic Machine Learning, Data Science Principles

PROFESSIONAL EXPERIENCE

Visiting Lecturer (Freelance Trainer)

Jawaharlal Nehru Architecture and Fine Arts University (JNAFAU), Hyderabad | Aug 2025 – Present

- Conducting Python and Full Stack Development sessions with practical coding guidance.
- Mentoring students in logic building, project development, and real-world implementation.
- Designed structured learning modules to improve coding confidence and placement readiness.

Freelance Full Stack Developer

Self-Employed / WebLaunch | Jun 2022 – Jan 2025

- Developed 10+ full stack web applications using Django, React, and Next.js for various clients.
- Implemented authentication systems, payment gateways, and SEO optimization, increasing client engagement by up to 60%.
- Managed deployments on AWS, ensuring 99% uptime and smooth production releases.

Guest Trainer – C Programming & Data Structures

QIS College of Engineering & Technology | Nov 2023 – Jan 2024

- Trained 200+ students on advanced C and Data Structures concepts.
- Introduced hands-on lab sessions and peer programming that improved code accuracy and performance.

Python Tutor

Raghu Engineering College | Feb 2023 – Mar 2023

- Conducted intensive sessions on Python fundamentals, OOP, and data structures.
- Guided mini-projects to improve students' real-world coding application skills.

Python Developer Intern

Codebook | Jan 2022 – Jun 2022

- Built dynamic websites using Django and REST APIs for live projects.
- Enhanced backend logic and reduced API response time by 25% through optimization.

PROJECTS

Meta Source – Inventory & Product Management Platform | Django, React

- Built for supply chain businesses to automate inventory and analytics. (metasource.co.in)

E-Commerce Platforms (Freelance) | Next.js, React

- Built responsive e-commerce stores with carts, payment gateways, and admin dashboards.

School Bee – School Management System | Django

- Developed a secure student data management system with role-based access control.

Military Edge Device ML System | Python, Machine Learning

- Created a device-to-cloud ML sync system for real-time data processing.

Harith Organic | PHP

- Developed a custom CMS-based organic store with payment integration. (harithorganic.com)

Other Projects: imptools.com, bharatpoliticalservices.com/handloom

EDUCATION

Bachelor of Technology (B.Tech), Computer Science

DRK College of Engineering & Technology | 2022 – 2025

Full Stack Development Certification

NxtWave | 2021 – 2022

Diploma in Electronics and Communication Engineering

Government Institute of Electronics | 2017 – 2021 | 67%

Secondary School Certificate (SSC)

Shantiniketan Model High School | 2017 | GPA: 8.0

KEY STRENGTHS

Full Stack Web Application Development

REST API Design & Integration

Technical Mentoring & Student Engagement

Scalable System Architecture

Agile Development & Collaboration

Client Communication & Delivery

Continuous Learning & Adaptability
