Profile

Motivated and detail-oriented mechanical engineering student with a Diploma in Mechanical Engineering seeking an entry-level position where I can apply my theoretical knowledge and practical skills to contribute to innovative projects and further develop my expertise in the field.

Experience

CNC MACHINE OPERATOR | RAGA TECH SOURCE PVT LTD | JUNE 2023 – NOV 2023

- Loaded raw materials into machines and monitored machine operations to ensure proper functioning and quality of finished products.
- Programmed CNC machines using G-code and CAD/CAM software to execute machining processes efficiently and accurately.
- Conducted routine maintenance tasks such as tool changes, tool sharpening, and machine cleaning to maintain optimal machine performance.
- Inspected finished parts using precision measuring instruments such as calipers, micrometers, and gauges to verify conformance to quality standards.
- Troubleshooted machine errors and made adjustments as necessary to ensure smooth production flow and minimize downtime.
- Implemented process improvements to enhance productivity, reduce waste, and optimize machining processes.
- Collaborated with engineering and production teams to resolve technical issues and meet production targets within deadlines.

Education

**DIPLOMA IN MECHANICAL ENGINEERING | APRIL 2024 | GOVERNMENT POLYTECHNIC
NANDIPET COLLEGE, NANDIPET, NIZAMABAD**

SSC | MAY 2021 | ZP SECONDARY SCHOOL, MAHAMMADAPURAM, WARNAGAL

Project

BATTERY OPERATED GRASS CUTTER | APRIL 2024

- Led a team in the design, development, and construction of a battery-operated grass cutter as part of an academic project.
- Utilized CAD for 3D modeling and design of the grass cutter components, ensuring precision and functionality.
- Implemented knowledge of mechanical engineering principles, including dynamics and material selection, to optimize the performance and durability of the grass cutter.

- Conducted testing and troubleshooting to refine the design and improve efficiency, resulting in a fully functional prototype.
- Presented project findings and outcomes to faculty and peers, demonstrating effective communication and presentation skills.
- Received positive feedback from project advisors for innovative design solutions and successful project execute.

Skills & Abilities

- Proficient in CAD software (SolidWorks, AutoCAD) for 2D and 3D modeling and design
- Strong understanding of mechanical engineering principles and concepts
- Familiarity with manufacturing processes including machining, casting, and welding
- Knowledgeable in thermodynamics, and heat transfer
- Ability to analyze and interpret technical drawings and specifications
- Excellent problem-solving skills and attention to detail
- Effective communication and teamwork abilities
